

BASKETBALL POST SEASON MEETING

Meeting took place at the CIFSDS Office on Tuesday, March 6, 2018 with the basketball Advisory Group.

Information and discussion took place over several items. Highlights from the information distributed and discussion are for your review below:

ALL CIFSDS selections were made before the advisory meeting for the boys and after the meeting for the girls.

OFFICIALS CONCERNS/ CITY AND NORTH COUNTY OFFICIALS ASSOCIATIONS WERE NOT PRESENT

- ❖ Coaches asked the CIF office to remind administration that they need to stay until the site has been cleared to assist with parents that want to speak to officials and their own staff with concerns at the conclusion of the game.
- ❖ Coaches asked that officials be present 20 minutes before game time for warm-ups.
- ❖ Asked if administrators needed to be present for the pre-game meetings at half court.

CIFSDS INFORMATION:

- ❖ Discussion about continuing to use MaxPreps or go back to power rankings. After discussion a vote was taken and it was decided that basketball would continue to use MaxPreps rankings for seeding. In the vote all conferences voted to continue except for Grossmont boy's rep that voted to go back to power rankings. Coaches voiced concern about having a human element also involved. After discussion it was decided to remain the same with some minor changes detailed below.
- ❖ The section office has requested that coaches still post schedules and score on the campus site so that we have the ability to cross reference schedules and scores like we used to do in reverse with the CIFSDS power rankings.
- ❖ In the case of Ties in the MaxPrep rankings. Carrying out the decimal point to break the tie will now break those. Those are available with the MaxPrep rankings and will be the first tie-breaker in the future. If there is still a tie the other established procedures will still be followed.
- ❖ Coaches asked if there was a possibility of changing the current policy that teams only allowed to move up or down one division. With a 3 year ranking they feel that teams should fall or go where their rankings place them and not be held to a single division movement cap. They were instructed to have one of their conferences bring that change forward.
- ❖ In the Open Division there will no longer be a state placement game for the losers in the quarter- finals. The Advisory vote was that they would rather have the week off.

- ❖ Advisory was notified that we have a proposal doing away with the current three-tournament bylaw. If this proposal passes, then all teams with regional and state playoffs can play in multiple tournaments but cannot exceed the contact limit imposed in Bylaw 1206.
