February 17, 2016

Dear Principals, Athletic Directors and Coaches,

The CIF, San Diego Section is very excited to announce a new initiative that we will launch this spring season. For the 1st time ever we will add wheelchair and ambulatory divisions to our CIFSDS Track and Field Championships. We will be offering 4 events: 100, 200, 400 and the shot put. These events will add to the fantastic display of student-athletes at our CIFSDS Track and Field championships.

All of us need to get out on our campuses and find these students to include as part of our track and field programs and get them competing. This is a fantastic opportunity for these students to participate in education-based competition and for your school to be inclusive. There will also be divisions at the CIF state track meet for these student-athletes.

Participants must submit a qualifying mark or performance standard to be considered for participation, so competing in regular season meets and being a member of your team is imperative. Please help us find these students on your campus and get them involved in the meaningful and challenging world of high school athletics.

Please share the guidelines, eligibility and entry requirements on the accompanying page with your coaching staffs and encourage your track and field coaches to seek out and include these students as part of your track program. Contact the CIFSDS office if you have any questions or need help and keep us informed about the inclusion of athletes at your school.

Sincerely,

A handwritten signature in blue ink, appearing to read 'J. Schniepp', written in a cursive style.

Jerry Schniepp
